

Tourism / Recreation

Tourism Development and Assessment

Recreational Areas in
Former Brown-Coal Mining Areas

Tourism Development and Assessment

- Local Recreation and Tourism in the South-Western Surroundings of Berlin (1991), in particular Analysis and Valuation of Recreational Areas,
- Tourism Concept "Obere Havel" (1992):
e.g. Perceptions and Expectations of User Groups, Analysis of Strengths and Weaknesses of Tourism Potential,
- Valuation of Tourism, Recreation and Leisure Activities on Different Spatial Levels in the Federal State of Brandenburg (1992-1994),
e.g. Valuation of the Landscape Attractiveness for Recreation, the Preferences of Different User Groups as well as Characteristic of Selected Forms of Tourism and Recreation,
- Types of holiday maker and day-tripper,
e.g. by means of Formal Concept Analysis,
- Survey of Tourists and Local Recreationists about Different Subjects, e.g. Spreewald, Island of Rügen, Harz, Rhön, Lower Lusatia, Lake Neusiedl / Fertö,

- Model of Touristic Nodes and Touristic Moving Spaces,
in particular Spreewald, Island of Rügen, Lake Neusiedl / Fertö, Nockberge,
- Cross-Border Touristic Map in the Tri-Border Region Carinthia – Slovenia – Italy
(2007, Scale 1:50 000)

Recreational Areas in Former Brown-Coal Mining Areas (1996-1999)

- Importance of Landscape Oriented Recreation and Local Recreation of the Urban Population in the Lower Lusatia, Identification of User Preferences,
- Characterisation of Recreation Potential and Development Possibilities in the Lower Lusatian Former Brown-Coal Mining Area, Integration into Existing Recreation Areas,
- Analysis and Valuation of Local and Regional Planning and Project Concepts for Recreational Use in the Lower Lusatian Brown-Coal Mining Redevelopment Area (e.g. IBA Fürst Pückler Land),
- Scenarios and Suggestions for Potential Recreation Areas (e.g. Future Lakes, Large Leisure and Recreation Centres) in due Consideration of User Preferences of Regional Population and the Projects of IBA Fürst Pückler Land
